

Odds and Ends: Former Attorney General John Mitchell is looking for a collaborator on his book about the Nixon years, Watergate, and his own trial.... David Atlee Phillips, a CIA field operative who rose to become chief of the agency's Western Hemisphere division, has retired to defend it against critics in *The Night Watch*. But the book is primarily an enthralling insider's memoir of twenty-five years in intelligence work. No new secrets here, but the book does offer an important perspective on many old revelations. Probably the most important pro-intelligence book yet.
